INTER-OFFICE CORRESPONDENCE

PLEASE POST ON
BULLETIN BOARD

TO: Dean Simpson, Principal
Site Administrator at Allesandro Elementary School (2068)

DATE: November 18, 2026

FROM: Greta Galoustian, Facilities Environmental Technical Manager
Facilities Environmental Technical Unit

SUBJECT: NOTIFICATION OF PLANNED ASBESTOS ABATEMENT WORK AT YOUR SITE

An asbestos abatement response action is scheduled to be performed at your site. The Asbestos Hazard Emergency Response Act (AHERA) requires that school staff and parents or legal guardians of students be notified of asbestos abatement work. This work will be performed by certified asbestos abatement workers in a manner that ensures all environmental and safety regulations are observed. The work areas will be posted with asbestos danger signs, as well as be isolated from other areas of the building(s).

This abatement will be in: Standard Relocatable Bldg. (A0419J) and 2/3 Unit Relocatable (X0388L)

The work space(s) is: Room 24, Restrooms, Kitchen; Rooms 22 & 23; Roof

The reason for the abatement is: Demolition of 2 Portable Buildings Project

The building material to be abated is: Floor Tile and Associated Mastic (All Layers), Roof Vent Sealant, Window Putty, Dash Coat on Pre-Cast Exterior Stairs, Drywall Ceiling with Joint Compound, Drywall Walls with Joint Compound, Mirror Mastic, Cement "Transite" Pipe Flue,

The abatement will involve the following: wet methods, wet wiping, and HEPA vacuuming under full containment, PCM air samples during abatement, visual inspection, and TEM air clearances

The anticipated start date is: 11/23/2026

The anticipated completion date is: 12/11/2026

After the abatement is completed, a detailed report will be sent to you. This report is to be inserted in the Asbestos Management Plan book, under the tab "ABATEMENT ACTIVITIES."

Please post this notice on your bulletin board for staff to read. In addition, the information above should be sent in a notice to the parents or legal guardians of the students, using the school's regular method of communication.

If additional information is required, please call me at (213) 747-2833, or write to me at Facilities Environmental Technical Unit, 1240 S. Naomi Avenue, Los Angeles, CA 90021.

INTER-OFICINA DE COMUNICAIONES

FAVOR DE FIJAR ESTE AVISO EN LA CARTELERA DE INFORMACION

PARA: Dean Simpson, Principal FECHA: November 18, 2026
Administrador del plantel @ Allesandro Elementary School (2068)

DE: Greta Galoustian, Facilities Environmental Technical Manager
Facilities Environmental Technical Unit

ASUNTO: NOTIFICACION SOBRE EL PLAN DE SUPRESION DE ASBESTO EN SU PLANTEL

Vamos a llevar a cabo un plan de supresion de asbesto en su plantel escolar. La ley de "Accion de emergencia debido a peligros del asbestos" (AHERA) requiere que el personal de una escuela y los padres o tutores reciban notificacion sobre cualquier plan de control del asbestos. Este plan lo llevara a cabo un equipo de trabajadores certificados en el control del asbestos, de manera que se cumpla con todas las reglas ambientales y de seguridad. Se colocaran avisos que indiquen "peligro de asbestos" en el area donde se realizara el control, y esta área estará aislada de otras partes del edificio.

El Control de asbestos realizara en el edificio: Standard Classroom Relocatable Bldg. (A0419J) and 2/3 Unit Relocatable (X0388L)

El lugar de trabajo es (los lugares de trabajo son): Room 24, Restrooms, Kitchen; Rooms 22 & 23; Roof

Este control se realiza debido a: Demolition of 2 Porable Buildings Project

El material del edificio que se va a controlar es: Floor Tile and Associated Mastic (All Layers), Roof Vent Sealant, Window Putty, Dash Coat on Pre-Cast Exterior Stairs, Drywall Ceiling with Joint Compound, Drywall Walls with Joint Compound, Mirror Mastic, Cement "Transite" Pipe Flue,

La supresión del asbestos incluirá lo siguiente: wet methods, wet wiping, and HEPA vacuuming under full containment, PCM air samples during abatement, visual inspection, and TEM air clearances

Anticipamos que el control comenzara el: 11/23/2026

Anticipamos que el control terminara el: 12/11/2026

Una vez que se complete la supresión del asbestos, se le enviara un informe detallado. Dicho informe tiene que incluirse en el plan de control del asbestos bajo la seccion "ACTIVIDADES DE CONTROL DEL ASBESTOS."

Por favor, coloque este aviso en la cartelera de infomacion para que el personal lo pueda leer. Ademas, esta informacion debe enviarse a los padres o tutores de los estudiantes, usando el metodo regular de comunicacion de la escuela.

Si desea mas información, comuníquese con la, Facilities Environmental Technical Unit, al (213) 747-2833, 1240 S. Naomi Avenue, Los Angeles, CA 90021.
